About this Report

This report is based on the completion of Saville Assessment Wave[®] Leadership Impact 360 which explores performance in a number of work areas.

The results are based on the responses of Chris Park (the assessee) and the raters' evaluation of the assessee's performance at work. To compare the assessee's performance in these areas to that of others, the responses have been compared to 6,410 Leadership Impact 360 ratings given on a group of managers.

Since the results are based on an evaluation of performance made by Chris Park and the other raters, they reflect the assessee's own perception and the perception of the raters. The results should only be regarded as an indication of the assessee's past performance. Our extensive research has shown that these ratings can be a good measure of work performance from the perspective of different stakeholders.

It should be remembered that the information contained in this report is potentially sensitive and every effort should be made to ensure that it is stored in a secure place.

This report was produced using Saville Assessment software systems. It has been derived from the results of an assessment completed by the assessee and the raters and reflects the responses they have made.

This report has been generated electronically. Saville Assessment do not guarantee that it has not been changed or edited. We can accept no liability for the consequences of the use of this report, howsoever arising.

The application of this assessment is limited to Saville Assessment employees, agents of Saville Assessment and clients authorised by Saville Assessment.

Profile Breakdown

The Leadership Styles Profile pages show the ratings on the 'Extremely Ineffective' to 'Extremely Effective' inventory scale. Each rater group is indicated by a different shaped marker as shown on the previous page.

The position of each shape on the scale indicates how the person being assessed was rated in each area. Where there is a difference between raters in a group, this is indicated by arrows either side of the marker.

Example:

In the example above, the assessee's Boss rating and Other ratings on 'Motivator' were fairly effective, the Self rating was fairly ineffective, the Peer ratings ranged from fairly effective to extremely effective as indicated by the arrows and the Report ratings ranged from very ineffective to very effective.

Note: The Leadership Impact areas are rated on a different rating scale ranging from 'Large Negative Impact' to 'Large Positive Impact'.

Rater Comments

Chris Park could improve their leadership impact by...

- Boss 1: dealing with issues in a timely manner; team members should not have to escalate to me because of lack of appropriate attention/support to team. Looking for new ways to engage stakeholders, get feedback, bring people on board by leveraging expertise
- Self 1: No comments were made
- Peer 1: Making more effort to collaborate with others team, colleagues and other key stakeholders; often makes decisions/does own thing without checking in with what the rest of the wider team are doing.
- Peer 2: Ensuring correct procedures are being followed in their team; inconsistencies in this area have come to light some team members cutting corners with regards to compliance, there needs to be more checks in place and not assuming everyone is following things as they should be
- Peer 3: No comments were made
- Report 1: being on hand to advise when there are issues rather than expecting us to deal with everything; taking a more involved approach to managing the team taking time find out what we're doing and providing clearer direction
- Report 2: No comments were made
- Report 3: Not sitting on issues often I have to chase to get input/resolution; Iistening more – having regular one-to-ones so can discuss issues and potential for development/getting involved in new things. Spending more time with the whole team giving more direction/guidance – particularly checking in when work is busy, demanding or there are problems. We generally know what to do, even in a crisis, but not always, and sometimes would be good to have the reassurance that we are doing the right thing.
